Gasket Dart
(Insert dart into door vinyl)
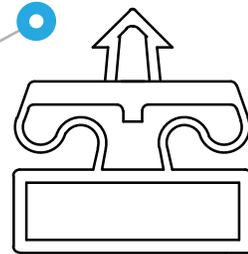

1- Remove old gasket and clean vinyl door surface.

2- Starting from the top hinge side of the door, carefully insert new gasket dart into door vinyl across the top of the door.

3- Continue inserting gasket down the door hinge side until you reach the bottom.

4- Repeat above process for the handle side of the door.

5- Straighten gasket out until it becomes flat against vinyl.
