

HYBRIDDOOR

Energy Efficient & Proven Performance!

Energy Efficiency & Sustainability

HybriDoor™ sets a new standard in protection against condensation by providing advanced thermal design and strategic trickle heat placement that is fully compliant with the Energy Independence Act effective January 1, 2009.

Additionally available for freezer applications as STYLELINE® HybriDoor™ Freezer model. Also fully compliant with Energy Act mandates latest generation LED lighting available as an integrated display lighting option, at an additional cost, to further promote sustainability, increase energy savings, and help products and sales “pop”.

- Energy Efficiency and Sustainability
- Field Reversible Door Swing*
- Proven hardware simplicity and reliability
- Pre-wired energy controller
- LED lighting available

* Directional bottom hinge swing kit required
