

- 1- Door handles can be easily replaced if they become damaged.
- 2- Contact your STYLELINE[®] representative to obtain the correct door handle replacement kit for your door. **You'll need model & serial number located on the frame.**
- 3- Using a Phillips-screwdriver, remove the two screws that attach the handle to the door as shown on **Figure 1**. Remove the damaged door handle.
- 4- Unpack the new door handle kit, and replace using provided screws.
